IN RE:      Robert & Jacquelyn Cunningham      )  
              Ward 072, Block 090, Parcel 00004      ) Shelby County  
              Residential Property                      )  
              Tax Year 2005                              )

**INITIAL DECISION AND ORDER**

**Statement of the Case**

The subject property is presently valued as follows:

<u>LAND VALUE</u>	<u>IMPROVEMENT VALUE</u>	<u>TOTAL VALUE</u>	<u>ASSESSMENT</u>
\$81,100	\$41,500	\$49,600	\$12,400

An appeal has been filed on behalf of the property owner with the State Board of Equalization. The undersigned administrative judge conducted a hearing in this matter on February 27, 2007 in Memphis, Tennessee. In attendance at the hearing were Robert Cunningham, the appellant, and Shelby County Property Assessor's representative Jonathan Jackson.

**FINDINGS OF FACT AND CONCLUSIONS OF LAW**

Subject property consists of a 35 year old rental home located at 2167 Pamela in Memphis.

The taxpayer contended that subject property should be valued at \$37,000. In support of this position, the taxpayer argued subject property experiences a loss in value due to its location in a high crime area and poor physical condition.

The assessor contended that subject property should remain valued at \$49,600. In support of this position, a spreadsheet summarizing five comparable sales was introduced into evidence. Mr. Jackson asserted that the comparables support a value indication of \$56,090 whereas subject property is appraised at only \$49,600. Mr. Jackson maintained that the current appraisal of subject property adequately accounts for any diminution in value attributable to the condition of the home.

The basis of valuation as stated in Tennessee Code Annotated Section 67-5-601(a) is that "[t]he value of all property shall be ascertained from the evidence of its sound, intrinsic and immediate value, for purposes of sale between a willing seller and a willing buyer without consideration of speculative values . . ."

After having reviewed all the evidence in the case, the administrative judge finds that the subject property should be valued at \$49,600 as contended by the assessor of property.

Since the taxpayer is appealing from the determination of the Shelby County Board of Equalization, the burden of proof is on the taxpayer. See State Board of Equalization Rule 0600-1-.11(1) and *Big Fork Mining Company v. Tennessee Water Quality Control Board*, 620 S.W.2d 515 (Tenn. App. 1981).

Respectfully, the administrative judge finds that the taxpayer did not introduce any comparable sales or repair estimates into evidence. Absent such evidence, the administrative judge must presume that the Shelby County Board of Equalization adequately accounted for any loss in value when it adopted the current appraisal of subject property.

The administrative judge finds merely reciting factors that could cause a diminution in value does not establish the current appraisal exceeds market value. The administrative judge finds the Assessment Appeals Commission has ruled on numerous occasions that one must *quantify* the loss in value one contends has not been adequately considered. See, e.g., *Fred & Ann Ruth Honeycutt* (Carter Co., Tax Year 1995) wherein the Assessment Appeals Commission ruled that the taxpayer introduced insufficient evidence to quantify the loss in value from the stigma associated with a gasoline spill. The Commission stated in pertinent part as follows:

The assessor conceded that the gasoline spill affected the value of the property, but he asserted that his valuation already reflects a deduction of 15% for the effects of the spill. . . . The administrative judge rejected Mr. Honeycutt's claim for an additional reduction in the taxable value, noting that he had not produced evidence by which to quantify the effect of the "stigma." The Commission finds itself in the same position. . . . Conceding that the marketability of a property may be affected by contamination of a neighboring property, we must have proof that allows us to quantify the loss in value, such as sales of comparable properties. . . Absent this proof here we must accept as sufficient, the assessor's attempts to reflect environmental condition in the present value of the property.

Final Decision and Order at 1-2. Similarly, in *Kenneth R. and Rebecca L. Adams* (Shelby Co., Tax Year 1998) the Commission ruled in relevant part as follows:

The taxpayer also claimed that the land value set by the assessing authorities. . . was too high. In support of that position, she claimed that. . . the use of surrounding property detracted from the value of their property. . . . As to the assertion the use of properties has a detrimental effect on the value of the subject property, that assertion, without some valid method of quantifying the same, is meaningless.

Final Decision and Order at 2.
